DRODZY PARAFIANIE i DROGIE PARAFIANKI:-

Ten rok był pierwszym w historii Parafii bezpłatnej nauki w Szkole naszej. Nauka dziecka kosztowała \$34.22 centy, razem z ofiar parafialnych wydaliśmy na szkołę \$7,937.79.

Opłaty kościelne od JEDENASTU LAT pozostały bez zmian. Zwiększyły się koszty utrzymania, bo wszystko wciąż drożeje, i tylko oszczędnej gospodarce, zawdzięczamy to, żeśmy tak gospodarzyli, bo obecnie procentem dopomagaliśmy do powiększania majątku naszej parafii.

Za kilka tygodni podamy SPIS tych, którzy złożyli, lub złożą do Spisy Popielcowej (11sty luty) swój Zarobek Dnia (Day's Pay). Proszę zapisać uczciwym, a szczególnie Parafianinowi Franciszkowi SALOMONOWI za dar artystycznej Wiecznej LAMPY.

Ks. A.A. Skoniecki, Prob.
Ks. J.E. Aubertin. Wlk.

DRODZY PARAFIANIE :-

Na odwrotnej stronie WIADOMOSCI PARAFIALNYCH podaliśmy Wam SPRAWOZDANIE FINANSOWE z gospodarki tegorocznej i całokształt rządów naszych za okres prawie 11st lat, gdyż za trzy tygodnie przypadnie JEDENASTA ROCZNICA, gdy Wiel. Ks. Proboszcz przybył do naszej parafii Sw. Piotra i Pawła.

Obecnie, bodaj po raz pierwszy podajemy do wiadomości ogołu, inne rekordy. A mianowicie:-

Parafia nasza składa się z 2102 członków. Z tych 1462 jest Katolikami praktykującymi swoją religię, i opłacającymi swe ofiary. Są to dorośli, uczęszczający do kościoła.

Małych dzieci, które jeszcze nie chodzą do szkoły jest 215. Dzieci w wieku szkoły elementarnej (elementary) jest 275. Do High School uczęszcza 92 młodzieży.

Mieszka wśród nas 53 osób, Katolików z imienia tylko, gdyż nie praktykują swej religii, do Sakramentów świętych nie uczęszczają, a raz, lub czasem dwa razy do roku odwiedzają Jezusa w kościele.

Mamy w szkole PARAFIALNEJ naszych dzieci 212, a 30 z parafii Donds-ville, lub Monson, razem 232 dzieci.

W tym roku Sakramentu Chrztu świętego otrzymało 30 dzieci tylko, boć tyle się tylko urodziło.

Ubyło nam, czyli zmarło w roku 21 parafian i Wieczne odpoczywanie racz im daś Panie. Przybyło przeto zaledwie 7 (siedem) nowych parafian.

W ciągu roku, nie licząc odwiedzin chorych po szpitalach, ani też po domach, zaopatrzono Sakramentami świętymi (Sw. Wiatyk-komunia św i Sakrament Ostatniego Olejem świętym namaszczenie) 84 osoby, które były w niebezpieczeństwie śmierci.

Ślubów odbyło się w naszym kościele 7 (siedem) tylko w całym roku.

Komunii świętych w ciągu roku zostało udzielonych 25,546.

Dzieci uczęszczających na naukę katechizmową ze szkół publicznych jest 63, a młodzieży z High School na naukę religii uczęszcza 88.

W zeszłym roku mieliśmy w parafii Misję świętą, w której brało udział 1380 osób w tym 230 dzieci.

Zostały wymalowane w tym roku Ołtarze i figury świętych, idziękujemy Towarzystwom św. Józefa, Bractwa Różańca świętego i Towarzystwu Najświętszego Serca Jezus za datki na wymalowanie ołtarzy i figury Najświętszego Serca Jezus, malowanie i odnowienie Stacji Drogi Krzyżowej zostało pokryte częściowo ofiarami ogołu.

Parafianin Franciszek Salomon złożył Bogu na podziękowanie za łaski otrzymane w swym życiu piękną, oryginalną i artystyczną Wieczną Lampę, jakie żaden kościół w Stanach Zjednoczonych nie posiada, gdyż została zrobiona na zamówienie i wedłu planów, jakie podał Wiel. Ks. Proboszcz artystom, gdy był na Konsekracji Kaplicy Matki Boskiej Częstochowskiej w Rzymie. Wartość tejże jest około \$1,000.00.

Zamowiliśmy również jeszcze w miesiącu listopadzie nowe Tabernakulum również bardzo kosztowne do wielkiego Ołtarza (Domek dla Jezusa Ułajonego), jaki ofiarował Jezusowi pewne małżeństwo. Mamy nadzieję, że niezadługo głosić ono będzie chwałę Jezusowi Ułajonemu w Przec najświętszym Sakramencie Ołtarza, a na długie lata świadczyć będzie o ofiarodawcach.

W kilku tygodniach staną nowe, tak potrzebne konfesjonały, które już zostały zamówione, wedłu nowoczesnych wymagań.

Dziękujemy najwięcej Bogu za zgodę, przykładne życie i lojalność, jakie panują w naszej parafii Sw. Piotra i Pawła. Bóg Wam niech błogosławi.

Report of the Board of Selectmen

The Board organized for the year with George B. Cheney, Chairman, Peter F. Warakowski, Clerk and John D. Aldrich, Third Member. Herbert W. Bishop, who served as a member of the Board continuously from 1947 declined nomination for reelection in 1955 due to a new business venture which necessitated his absence from the town.

The flood of August 18-19 disrupted plans for the reconstruction of approximately 1800 feet of highway on Main Street, Bonds-ville. The Department of Public Works has contracted to have this work performed in the early spring under the provisions of Chapter 90. Estimated cost of the work is \$28,000 with the State Contributing \$14,000 and the town and County equally sharing the balance of \$14,000.

The August flood caused considerable damage to highways, walks, sewers and culverts and numerous homes and business establishments were seriously affected. Board members have travelled to Boston, Worcester and Springfield on numerous occasions to confer with officials of the Flood Relief Board, the Division of Waterways and the Department of Public Works and measures to eliminate the danger of future floods are being given serious consideration by these officials. The Bridge Street bridge, Three Rivers, which is considered a bottleneck during flood stages has been given a preliminary inspection by State and Army Engineers and it is expected that a favorable report will be received shortly as to whether this bridge will be replaced or redesigned. A Flood Damage Committee appointed by the Board has been conferring with State and Federal officials toward securing Federal or State aid in connection with this project. The County Hydraulic Engineer, at the request of the Board is investigating the possibility that the dam on the Chicopee River might create a flood threat to that village under run-off conditions. Upon completion of his investigation, a report will be made to the County Commissioners and the Board and recommended action will be taken.

A petition has been presented to the Division of Waterways calling for the dredging and stream clearance of all rivers and streams within the confines of the town which might tend to create a hazard in the event of heavy rains.

The replacement and possible relocation of Burleigh Bridge over the Quaboag River off Route 181 is being considered by the Flood Relief Board and the Department of Public Works. Surveys

of this project are in preliminary stages but it is expected that a complete report of survey together with recommendations will be received soon.

Claims for damages to the North Street sewer, Three Rivers, and culverts on Old Warren Road and Nipmuck Road were presented by the Board and approved by the Army Engineers. These projects were completed by the Engineers through contracts with private contractors at no cost to the town. The town has been assured that reimbursement will be made for expenses incurred in connection with the replacement of the culvert on Main Street, Thorndike.

Claims for approximately \$14,000 for temporary flood repairs were presented and the town has received reimbursement in full. Claims for reimbursement for permanent repairs are in the process of being prepared and will be presented to the proper officials.

Nearly all highway, walks and sewer projects were carried through to completion. Projects interrupted by the flood will be completed in the spring. A drainage project in the Brainerd Tract Area, so-called, is nearing completion and will decrease the hazard of future floods.

Numerous street lights were installed throughout the various villages. In order to provide for more adequate lighting of Thorndike, 6 new aluminum poles with increased lighting were installed on Main and Commercial Streets.

The town lost approximately 14 acres of recreational area at Burleigh Park due to Turnpike construction. The Board has been notified that a hearing will be scheduled with the Authority to discuss the amount of actual damage the town sustained by reason of the taking.

We wish to express our thanks to the Police Department, Tree Department, Board of Health, Moth Department, School Department, Fire Department, Red Cross and all other agencies who worked so diligently with the Board during the flood emergency and for cooperation throughout the year.

Respectfully submitted,

GEORGE B. CHENEY

To the Owners of Property, whether industrial, commercial or residential in the areas flooded by the rains of August 18th and August 19th, we the Board of Assessors, Alvin C. Rondeau, Joseph S. Gill and William A. Coulter sincerely regret any loss suffered by you in this diaster.

Not all of Palmer was hit directly by the flood but the whole Town proved to be "neighbors" to the stricken areas, and the response in time of need was immediate, spontaneous and almost overwhelming and it proved that the people in the Town of Palmer are pretty fine.

Sincerely yours,

ALVIN C. RONDEAU

PETER E. PAPPAS, Clerk

Report of Chief of Police

To the Honorable Board of Selectmen,

Town of Palmer, Mass.

Gentlemen:

The annual police report for the year ending December 31, 1955 is submitted for your consideration.

During the year 432 complaints were prosecuted in the District Court of Eastern Hampden against 337 males and 18 females for offenses committed within the confines of this town. Eight delinquent complaints were issued against juveniles, five fugitives were taken into custody, fourteen automobiles were recovered and 255 summonses served for other departments. Motor patrols covered 42,817 miles.

Palmer had one auto accident which resulted in fatality and sixty-three persons suffered injuries as a result of auto accidents.

A traffic survey of the Thorndike St. area should be conducted in the near future as this street will become a very heavily traveled artery with the completion of the toll road. Plans must be formulated to provide for regulation of additional traffic. The survey should also include the North Main St. area as the recent survey of this area indicates no action on traffic signals should be taken until the toll road is completed.

The disastrous flood of August 1955 proved there is urgent need of a well organized Civilian Defense Unit ready to act in emergencies. It was very gratifying to note the many community minded citizens who immediately volunteered to assist the police department and I wish to thank the various organizations and each individual for the valuable services rendered.

Palmer is fortunate in having citizens ready to respond when most needed and their services should be coordinated by a Civilian Defense Unit.

Officers William E. Holt and Theodore A. Zebrowski attended and completed the Officers Training Course at Framingham.

I wish to thank the officers of the department for their attentiveness to their duties and for creditably performing their assignments.

May I again express my appreciation to your Honorable Board for the splendid cooperation extended to members of the department and myself at all times.

Respectfully submitted,

JAMES F. DONAHUE

Chief of Police

Report of Moth Department

Amount Appropriated	\$1,800.00	
Expenditures	1,707.24	
Balance		\$92.76

Honorable Board of Selectmen

Gentlemen:

Two Gypsy Moth infestations were: The Old Warren Road, and the Camp Mohican and Reena areas. Both were promptly sprayed with excellent results. The remainder of the town is comparatively clean. No major infestations are expected this year.

Dutch Elm Disease

Appropriation and Transfer	\$5,172.55	
Expenditures	5,172.55	
Aero Mist Sprayer — Amount Appropriated	\$2,700.00	
Expenditures	2,295.00	
Balance		\$405.00

During the past year, 31 diseased Elm Trees were disposed of. During the summer an additional 62 trees were found diseased, a decline of 19 trees from the previous year.

With the purchase of the Aero Mist Sprayer, this department feels a bit optimistic with regards to the future of the Elm Tree. From present indications there are reasons to believe the Elm Tree mortality will be cut considerably.

As in the past, a thorough spray and sanitation program shall be continued.

Respectfully submitted,

STANLEY J. STRZEMIENSKI

Moth Superintendent

Report of Park Commissioners

To the Selectmen and Citizens of Palmer:

The Town's park and playground areas have continued to serve the needs of our people during this year and have provided recreational facilities for a steadily growing number. Our equipment, as well as the grounds at the various locations, has been well maintained and the replacements due to normal wear and tear have been made wherever necessary.

The loss of Burleigh Park has been severely felt. The heavy equipment of the contractors for the new Toll Highway moved into the park in the early Spring and within a few days the pool and picnic area were destroyed. No arrangements have yet been made for a new location.

A new fence has been installed at Endelson Playground at Bondsville, completing the enclosure. Plans have been made for the installation of a commemorative boulder and plaque there, but due to delays caused largely by the August flood have not been carried out. It is expected that the work will be done and suitable dedicatory ceremonies held this year.

The skating rink at Legion Field this season provided the best ice surface in several years and is being used to capacity.

Our thanks and appreciation go to our caretaker, Carmine Russo, for his faithful and efficient service, and to the other departments of our town, whose cooperation has been very helpful.

Report of Inspector of Animals

Palmer, Mass.

December 31, 1955

To the Honorable Board of Selectmen
Town of Palmer

Gentlemen:

All inspections ordered by the Division of Livestock Disease Control have been completed and the requirements of Section 19, Chapter 129, of the General Laws of Massachusetts have been compiled with, and reports filed with the Director at 41 Tremont Street, Boston.

There were one shipment of cattle received in town from other states. These animals were identified and released per order of the Director.

There also were 51 visits made to examine and quarantine dogs known to have bitten persons. None showed symptoms of Rabies and were released after 14 days.

Respectfully submitted,

GEORGE S. GAY

Inspector of Animals

Veteran's Service Center

To the Honorable Board of Selectmen

Town of Palmer, Massachusetts

Gentlemen:

The veteran population of the town at the end of the year reached a total of 2,117 of which 49 were listed as discharged or separated during the past year. There were 1,211 personal contacts at the office and 492 telephone calls relative to various benefits and claims of veterans and their eligible dependents. Compensation and Pension claims were filed by 10 persons, 8 of these having been awarded by the Veterans Administration representing an additional income to these recipients of \$4,690 during the year. Records disclose that there are 240 discharged veterans of this town credited with Korean Service. The termination date for Korean Service was January 31, 1955. All persons entering service after that date are classified as peacetime servicemen and not entitled to many of the war time benefits as provided for by Congress under the G. I. Bill. A total of 452 veterans are buried in our local cemeteries, 9 of these having died during the past year. Other services listed by the Veterans' Service Center were as follows:

620	Photostats
74	Bonus applications
72	Insurance applications
62	Disability verifications
84	Letters for veterans
50	Discharges recorded
42	Out Patient requests
32	Education applications
18	Hospitalization requests
368	Miscellaneous other services

Under provisions of Chapter 115 G. L. of Mass., as amended, 55 cases of needy and eligible veterans and their dependents were

handled involving a total of 193 persons. Emergency Flood Relief was also granted to 11 veterans and their dependents.

Report of Forest Fire Warden

Report of the Forest Warden for the Year ending December 31, 1955:

To the Board of Selectmen
Town of Palmer, Massachusetts

Gentlemen:

I herewith submit my report as Forest Warden of the Town of Palmer for the year ending December 31, 1955.

This department answered a total of 20 calls this past year. Some of these fires were the result of construction of the new Toll Highway. It is interesting to note again this year the few fires occurring this past Fall.

The equipment of the department is in good condition with the exception of the mobile radio in the Forest Fire Truck which should be replaced. This is an old set nearly 12 years old and not nearly as efficient as the modern radios manufactured today.

Again I would like to impress upon our people that permits are necessary at all times for outside fires. They may be obtained by calling the Forest Warden.

I wish again to thank your honorable board for the fine cooperation you have always given me in this department.

Respectfully submitted,

VICTOR M. FRENCH

During the year the Library has continued to serve the needs of the community and has offered to the townspeople an up-to-date selection of the best publications. We note that the use of the Library facilities by our younger citizens is steadily increasing and that a growing number of our high school students are making use of the reference works and the reading rooms.

The shelves have been cleared of many worn-out or obsolete books, while 1,272 volumes have been rebound or repaired and returned to service.

The branch at Thorndike was closed last Fall after the death of our Branch Librarian, Mrs. Sophie Jorczak. Arrangements are now being made for a new location in Thorndike and it is expected that our branch in that village will soon be in operation again.

During the Spring of this year the Library conducted an Art Show, exhibiting the work of 53 local artists. The first affair of its kind to be sponsored here on a town-wide basis, it was highly successful and was attended by more than a thousand people. Details of the show and much of the work involved were taken care of by a special committee of local people interested in oil-or water-color painting, and the Library Trustees express their

thanks to those people whose efforts made the show such a success. Arrangements are now being made to hold a similar exhibition in the late Spring of 1956.

We urge the townspeople to ask for any book they may wish to read. If we do not have it, we can get it, either by loan from a larger library or by purchase if warranted. Books in foreign languages may also be borrowed through our connections with other libraries.

Report of the Tree Warden for 1955

Amount appropriated	\$2,200.00
Amount Spent	3,919.82
Amount flood refund	850.00

The year of 1955 produced eleven days of unusual weather conditions, mainly severe high winds, that caused a great amount of damage by breakage of limbs and split trees, and felling up-rooted and leaning trees.

These storms occurred mostly on weekends between Fridays and Sundays. We had three bad thunder storms that caused some damage by wind and lighting.

We also had the severe flood of August. This caused a large amount of tree damage by undermining trees on streets that were washed out and along brook banks and river banks near roads and bridges. These trees were either felled or leaning so badly that they had to be removed. The department also had the usual number of trees to remove that had died or were a danger to public safety or public property.

A number of trees were trimmed of dead limbs and dangerous stubs, and low limbs were removed on streets and country roads. The department planted twenty trees in various places in the four villages to replace trees that were removed or where new homes were built and no trees existed.

The department had many calls to remove limbs that had grown to near television antennae or were damaging roofs and houses.

The tree department wishes to express its thanks to the town Highway Department and The Worcester County Electric Co. for their help and co-operation during the many storms of the past year.

It is the belief of the Tree Department that a tree planting program should be set up within the next three years, and the department will draw up such a program to be presented to the Selectmen and the finance committee within the next year.

Annual School Report

To the School Committee of the Town of Palmer:

I submit herewith my fifth annual report, the sixty-third report of the town.

Repairs.

This past summer toilet renovations were carried out in the boys' toilets in Three Rivers and Bondsville. These renovations will represent a fine improvement when completed. It is planned that these rooms will be painted when the other work has been done. The School Committee plans to extend this toilet renovation as fast as available monies are appropriated to all schools.

Classrooms at Quabaug were repainted this year; and floors were refinished at Quabaug, Three Rivers, and Bondsville to accommodate the new movable furniture units. Janitors did a fine job at refinishing these floors.

Needed Repairs.

The high school roof is in poor condition and needs to be replaced.

The rear wooden section of the Bondsville School should be scraped and repainted.

Outside trim at Three Rivers and Thorndike should be completed in the near future.

The School Committee definitely plans to continue renovation of the school toilets begun at Three Rivers and Bondsville Schools. Estimates are being secured now for the extension of this work in the boys' toilets at Thorndike and Park Street.

Flood Damage.

Considerable damage occurred at the Three Rivers School. The entire basement area was flooded within six inches of the first floor. Damage within and without the building was estimated

at \$3,000. School janitors and volunteer help from students put the building back in good condition before the opening of school.

First-Grade Entrance.

At the September meeting of the School Committee, the testing program formerly administered to pupils born in January was discontinued. Children who become six years of age on or before December 31, 1956, are eligible to enter grade one.

New Books.

Many new books were added in the schools. New arithmetic books for grades one through four and new grade four geographies arrived in the schools for this school year.

In the high school, new texts in world history and English were received.

Enrollments.

Schools opened again this year with an increased enrollment. This increase appeared partially in the elementary grades, but the greatest increase occurred in the high school, which is now operating at full capacity. The high school figures are as follows:

	1955-1956	Expected 1956-1957
Seniors	68	94
Juniors	94	127
Sophomores	127	145
Freshmen	145	203
	434	569

Even though some space can be used upstairs at the Thorn-dike Street School next year, the inescapable conclusion is that additional facilities to the high school must be planned immediately.

At a recent meeting of the School Committee, it was voted to insert an article in the warrant of the next town meeting for the formation of a building committee. The School Committee plans to confer again with the School Building Assistance Commission to discuss preliminary plans based upon forthcoming enrollments.

Budget.

The 1956 budget represents an increase of \$31,350 over last year. An analysis of the budget shows that, in the main, the

salaries of personnel and transportation are largely responsible for the increase.

A new contract to the Palmer Motor Coach Service was awarded to begin in September, 1956. Additional transportation has been planned in the new contract. This was made necessary by a permanent close-off on the toll highway; and due to an increased enrollment in the high school, pupils living in outlying districts, who are now being transported on elementary school busses in the afternoon, will be transported home directly from the high school at the close of school.

The School Committee voted to double the increment (a sum of \$300) of all teachers who have completed study requirements and voted a \$200 increase for janitors and clerks, effective January 1, 1956.

A new salary schedule was adopted to permit Palmer to compete with surrounding communities for a fast dwindling supply of competent teachers.

Unfortunately, there are some who make light of the educators' constant reference to a "teacher shortage." Palmer's turnover has been low in comparison with other communities. However, in spite of this, your superintendent can report that procuring competent teachers is more difficult now than in all my years of experience, and it is getting worse each year. Letters were sent to all colleges in the nearby area for available candidates for openings in Palmer for next September; and before Christmas, letters by return mail from most of the colleges stated that all candidates were signed up for next year. In many cases, candidates will not sign now, as they await positions out of the state at a higher beginning salary than is being paid by most communities in Massachusetts. It is a strange paradox that, in a land of plenty, our children are being short-changed because of a lack of good teachers to teach them. This surely will be written in history as the great American tragedy.

A Look At The Future

Two years ago, a Town Survey Committee took a good look at the Palmer Schools. As a result, the Thorndike Street School was renovated, enabling us to house more elementary pupils. At that time, the committee recommended the formation of another committee to take a close look at the high school facilities in 1957. Since then, the Colorado Fuel and Iron Corporation has expanded its plant, and the toll road has cut a wide swath through our community, changing its appearance considerably. The toll road itself

and the confidence of the Colorado Fuel and Iron Corporation in expanding here will have a marked influence on this community's future if we will but plan for it wisely.

An expanding community must plan its school program. Two years ago, an addition to the present high school was a foregone conclusion, but now we pause to wonder. An addition would need to house a new gymnasium, household arts facilities, up-to-date science laboratories, cafeteria, health quarters and an expansion of shop facilities. All of these are expensive units. Recently school officials conferred with members of the School Building Assistance Commission regarding an addition to the present building, and serious questions were raised as to whether it would be the wisest economical thing to do in the face of impending town growth. It is estimated that, to house the peak enrollments on known figures, the high school will need to accommodate between 600 to 700 pupils. To add the units mentioned above, plus some additional classrooms, on the present site without taking taxable property, might present a problem. Another important question has been raised regarding curriculum: Should Palmer consider a more extensive educational program for its seventh-, eighth-, and ninth-grade pupils in the way of shop for boys and household arts for girls, as is the case in many other communities? If the community should desire this, the present high school might be utilized as a junior high school, leaving more room in the elementary schools for future growth. This question should be explored thoroughly, as an affirmative answer in this case means a new high school building entirely, in addition to some rethinking of transportation problems that must be answered.

This problem is a community responsibility. The School Committee has voted to insert an article in the warrant this year to formulate a committee to assist them in looking at this problem squarely in the best interests of the town. This committee would recommend to the people for their consideration what seems to be the best course to follow to meet adequately all the educational requirements of the children in a modern society at the most economical cost.

Conclusion

In conclusion, may I take the opportunity to express my sincere appreciation to the members of the School Committee, the Board of Selectmen, the Highway Department, the Police Department, the Park Department, all other town officers, a loyal and helpful staff, Parent-Teacher Associations, cooperative parents and friends, businessmen, community organizations, and all others

who have given the School Department their whole-hearted support in its objective to provide a successful school program for your children.
